Reviews

T. B. Ng 1 A review of research on the protein-bound polysaccharide (polysaccharopeptide, PSP) from the mushroom *coriolus versicolor* (basidiomycetes: polyporaceae)

P. Holzer 5 Neurogenic vasodilatation and plasma leakage in the skin

A. Mathie, J. R. A. Wooltorton and C. S. Watkins 13 Voltage-activated potassium channels in mammalian neurons and their block by novel pharmacological agents

General Papers

J. R. Pérez Vallina, L. Menéndez Antolin, B. Cantabrana, M. Sánchez and A. Hildago 25 Nitric oxide and cyclic nucleotides participate in the relaxation of diclofenac on rat uterine smooth muscle

K. K. Monroe and S. W. Watts 31 The vascular reactivity of melatonin

M. A. Oriowo 37 Neural inhibition in the rat lower esophageal sphincter: role of β_3-adrenoreceptor activation

D. Bagchi, P. J. Vuchetich, M. Bagchi, M. X. Tran, R. L. Krohn, S. D. Ray and S. J. Stohs 43 Protective effects of zinc salts on TPA-induced hepatic and brain lipid peroxidation, glutathione depletion, DNA damage and peritoneal macrophage activation in mice

R. Blanqué, C. Cottereaux and C. R. Gardner 51 Increases in osteocalcin after ovariectomy are amplified by LPS injection: strain differences in bone remodelling

C. R. Gardner, S. Hussain, A. Pringle, J. Bagust and R. J. Walker 57 Comparison of responses of spontaneously active cells in the cerebellar purkinje layer to parallel fibre stimulation in slice preparations and urethane-anaesthetised rats: effects of benzodiazepine receptor ligands

R. F. Parrott and S. V. Vellucci 65 Comparison of the antipyretic actions of indomethacin and L-745,377, a selective cyclooxygenase-2 inhibitor, in endotoxin-treated prepubertal pigs

M. Gutiérrez, A. I. Fernández, M. P. Revuelta, B. Cantabrana and A. Hildago 71 Partial contribution of polyamines to the relaxant effect of 17α-estradiol in rat uterine smooth muscle

S. Cordellini and V. S. Vassilieff 79 Decreased endothelium-dependent vasoconstriction to noradrenaline in acute-stressed rats is potentiated by previous chronic stress: nitric oxide involvement

L. J. Núñez-Vergara, J. A. Squella, S. Bollo-Dragnic, R. Marín-Catalán, L. Pino, G. Díaz-Araya and M. E. Letelier 85 Isradipine and lacidipine: effects *in vivo* and *in vitro* or *trypanosoma cruzi* epimastigotes

L. Estañ, A. Abad, F. J. Morales-Olivas and V. Serra-Serra 89 Isolated human chorionic vascular reactivity: technical considerations for fresh preparations

J. N. Khatri, L. A. Silks, III and J. W. Kosh 95 Selected pharmacodynamic and biochemical properties of selenonium choline

M. Satoh, M. Hayasaka, K. Horiuchi and I. Takayanagi 103 Protein kinase C mediates increase of Ca^{2+} sensitivity for contraction by cholinoceptor partial agonist in ileal longitudinal muscle of guinea pig

M. Yamabe, T. Hosokawa, T. Taoka and M. Misawa 109 A new pharyngitis model using capsaicin in rats

K. Muraki, Y. Imaizumi, T. B. Bolton and M. Watanabe 115 Comparative study of effects of isoproterenol and vasoactive intestinal polypeptide on voltage-dependent Ca^{2+} and Ca^{2+}-activated K^+ currents in porcine tracheal smooth muscle cells

C. Lox, C. Ronaghan and E. Cobos — 121 — Blood chemistry profiles in menopausal women administered tamoxifen for breast cancer

M. A. Tormo, M. F. Ropero, M. Nieto, I. M. Martinez and J. E. Campillo — 125 — Effect of miglitol administration to non-insulin–dependent diabetic rats

J. A. King, H. Huddart and W. G. Staff — 131 — Effect of choline ester analogues, noradrenaline and nifedipine on normal and hypertrophied human urinary bladder detrusor muscle

T. Natsukawa, T. Matsuzaki, S. Hayashi, Y. Ukai, Y. Yoshikuni and K. Kimura — 137 — Comparison of the effects of NS-21 and terodiline on the QTc interval in dogs

Announcement — 143

Vol. 30 No. 2

Reviews

C. Heberden, I. Denis, A. Pointillart and T. Mercier — 145 — TGF-β and calcitriol

S. Sagratella — 153 — Characterization of the *in vitro* antiepileptic activity of new and old anticonvulsant drugs

General Papers

H. Nagai, M. Goto, H. Kamada, K. Boda, K. Kitagaki and Y. Takaoka — 161 — Immunopharmacological studies on experimental allergic encephalomyelitis in DA rats

T. Uno, H. Tanaka and H. Nagai — 167 — Effects of isoenzyme selective phosphodiesterase inhibitors on bacterial lipopolysaccharide-induced bronchial hyperreactivity in guinea pigs

T. Yoshimura, T. Nagao, T. Nakao, S. Watanabe, E. Usami, J. Kobayashi, F. Yamazaki, H. Tanaka, N. Inagaki and H. Nagai — 175 — Modulation of Th1- and Th2-like cytokine production from mitogen-stimulated human peripheral blood mononuclear cells by phosphodiesterase inhibitors

B. Palacios, M. J. Montero, M. A. Sevilla and L. San Román — 181 — Pharmacology of JB-9315, a new selective histamine H_2-receptor antagonist

A. Colquhoun and R. Curi — 191 — Effects of saturated and polyunsaturated fatty acids on human tumor-cell proliferation

W. C. M. Cramer and G. P. Toorop — 195 — Focal cerebral ischemia in the mouse: hypothermia and rapid screening of drugs

M. Campos-Toimil, I. Estévez, A. Raviña and F. Orallo — 201 — Pyridazine derivatives XIV. Study of the vasorelaxant action of 6-aryl-5-piperidino-3-hydrazinopyridazines in isolated rat thoracic aorta: comparison with hydralazine

H. Satoh — 209 — Modulations by taurine of the spontaneous action potentials in right atrial muscles of rats

S. M. Pedder, M. L. Chen, Y. Muneoka and R. J. Walker — 213 — Structural requirements and ionic mechanism of the *Mytilus* inhibitory peptides (MIPs) on *Helix* central neurons

W. Zhang, X. Y. Han, S. M. Wong and H. Takeuchi — 221 — Effect of inhibitors for intracellular signal transduction systems on the inward current produced by GABA in a snail neuron

P. G. McLean and I. M. Coupar — 227 — Investigation into the effect of 5-hydroxytryptamine on fluid transport in the rat small intestine

T. Yokoyama, H. Izumi, M. Endoh, N. Ogawa, T. Izawa and Y. Okada — 233 — Effect of KRN4884 on lipid metabolism in hyperlipidemic rats

T. Król — 239 — Activity of lysosomal system in mouse liver after taxol administration

E. A. Del Bel, C. A. da Silva and F. S. Guimarães — 245 — Catalepsy induced by nitric oxide synthase inhibitors

Symposium: Basic mechanisms related to stress, ischemia and neuroprotection in the retina

Introduction

R. J. Walker 253

Reviews

N. N. Osborne, C. Cazevieille, J. P. M. Wood, M. S. Nash, G. Pergande, F. Block, C. Kosinski and M. Schwarz 255 Flupirtine, a nonopioid centrally acting analgesic, acts as an NMDA antagonist

D. Hicks, V. Heidinger, S. Mohand-Said, J. Sahel and H. Dreyfus 265 Growth factors and gangliosides as neuroprotective agents in excitotoxicity and ischemia

C. Bonne, A. Muller and M. Villain 275 Free radicals in retinal ischemia

F. Block and M. Schwarz 281 The b-wave of the electroretinogram as index of retinal ischemia

C. B. Duarte, I. L. Ferreira, P. F. Santos, A. L. Carvalho, P. M. Agostinho and A. P. Carvalho 289 Glutamate in life and death of retinal amacrine cells

General Papers

M. Ugarte and N. N. Osborne 297 The localization of endogenous zinc and the *in vitro* effect of exogenous zinc on the GABA immunoreactivity and formation of reactive oxygen species in the retina

E. Vecino, E. Caminos, M. Ugarte, D. Martín-Zanca and N. N. Osborne 305 Immunohistochemical distribution of neurotrophins and their receptors in the rat retina and the effects of ischemia and reperfusion

A. Muller, L. Maurin and C. Bonne 315 Free radicals and glutamate uptake in the retina

A. do Carmo, C. Lopes, M. Santos, R. Proença, J. Cunha-Vaz and A. P. Carvalho 319 Nitric oxide synthase activity and L-arginine metabolism in the retinas from streptozotocin-induced diabetic rats

V. Nosál'ová, A. Babul'ová and V. Bauer 325 Gastric transmucosal potential difference: effect of antisecretory and gastroprotective drugs

L. Bravo, M. D. Herrera, E. Marhuenda and C. Perez-Guerrero 331 Cardiovascular effects of lovastatin in normotensive and spontaneously hypertensive rats

P. D. Williams, H. Ye, F.-C. Cheng, P. Fugedi and R. Tressler 337 Comparative effects of heparin and the sulfatoid GM1474 on coagulation parameters in plasma and blood from various species

A. Gelal and H. Guven 343 Characterization of 5-HT receptors in rat proximal colon

Ş. Yıldırım, H. Kamoy and E. Demirel-Yılmaz 347 Possible mechanism of high calcium–induced relaxation of rabbit thoracic aorta

J. Kocić and K. Z. Korolkiewicz 351 Negative inotropic action of alpha-1A adenoceptor blocking agents: role of adenosine and ATP-sensitive K^+ channels

J. Bondeson and R. Sundler 357 Antimalarial drugs inhibit phospholipase A_2 activation and induction of interleukin 1β and tumor necrosis factor α in macrophages: implications for their mode of action in rheumatoid arthritis

V. Goutsouliak and S. W. Rabkin 367 Comparison of angiotensin II type-1 and type-2 receptor antagonists on angiotensin II-induced IP_3 generation in cardiomyocytes

H. Satoh — 373 Suppressive responses to calcium and catecholamines in immobilization stress-loaded rats

H. Shinyama, H. Nagai, T. Kawamura, Y. Narita, N. Nakamura and Y. Kagitani — 379 Therapeutic effects of AE0047, a novel calcium antagonist, on progression of brain damage after stroke in stroke-prone spontaneously hypertensive rats

N. Hamaue, N. Yamazaki, M. Minami, T. Endo, M. Hirahuji, Y. Monma and H. Togashi — 387 Determination of isatin, an endogenous monoamine oxidase inhibitor, in urine and tissues of rats by HPLC

T. Otsu, T. Nagao and H. Ono — 393 Muscle relaxant action of MS-322, a new centrally acting muscle relaxant, in rats

N. Kılıc, E. Malhatun, E. Elmalı and N. Altan — 399 An investigation into the effects of sulfonylurea glyburide on glutathione peroxidase activity in streptozotocin-induced diabetic rat muscle tissue

B. Desta, S. Steed, D. Ravel, N. Laudignon, P. M. Vanhoutte and C. M. Boulanger — 403 Acute and chronic effects of dexfenfluramine on the porcine pulmonary artery

M. I. Serrano, J. S. Serrano, A. Fernández, I. Asadi and M. C. Serrano-Martino — 411 $GABA_B$ receptors and opioid mechanisms involved in homotaurine-induced analgesia

O. C. M. Pereira, M. R. Dega and M. S. S. Souza — 417 Noradrenergic response in vas deferens from rats submitted to acute and repeated stress

M. Yamaguchi and Y. H. Gao — 423 Potent effect of zinc acexamate on bone components in the femoral-metaphyseal tissues of elderly female rats

Book Reviews — 429

Announcement

Vol. 30 No. 4

Reviews

D. E. McBean and P. A. T. Kelly — 431 Rodent models of global cerebral ischemia: a comparison of two-vessel occlusion and four-vessel occlusion

R. Balaña-Fouce, R. M. Reguera, J. C. Cubría and D. Ordóñez — 435 The pharmacology of leishmaniasis

M. Pines and A. Nagler — 445 Halofuginone: a novel antifibrotic therapy

H. Satoh and N. Sperelakis — 451 Review of some actions of taurine on ion channels of cardiac muscle cells and others

P. Gareri, G. Stilo, I. Bevacqua, R. Mattace, G. Ferreri and G. De Sarro — 465 Antidepressant drugs in the elderly

General Papers

B. Tunçtan, İ. Çakıcı, N. Abacıoğlu and İ. Kanzık — 477 Bradykinin-induced responses in a coaxial bioassay system composed of rat anococcygeus muscle and guinea pig trachea

M. A. Cruz, V. Gallardo, P. Miguel, G. Carrasco and C. González — 483 Mediation by 5-HT_2 receptors of 5-hydroxytryptamine-induced contractions of human placental vein

S. Nikfar, M. Abdollahi, M. Sharifzadeh and N. Eftekhar — 489 Interaction between lead acetate and morphine on antinociception in mice by formalin test

A. Yeşilkaya and A. Yeğin — 495 Inhibition of human erythrocyte (Na^+-K^+) ATPase by organic hydroperoxides and protection by ascorbic acid and butylated hydroxytoluene

A. O. S. El-Kadi and S. I. Sharif	499	The role of dopamine in the expression of morphine withdrawal
F. X. Sureda, A. Camins, M. Pallàs, R. Trullàs, E. Escubedo and J. Camarasa	507	Reactive oxygen production by glutamate agonists in dissociated cerebellar cells: a flow cytometric study
S. Evangelista, P. Boni, A. Castellucci, F. Perretti, M. Pretolani, D. Joseph, A. R. Renzetti, A. Subissi and S. Manzini	513	Antihistaminic and antiallergic properties of dextro-mequitamium iodide in upper and lower guinea pig airways: comparison with azelastine
A. Velasco, M. T. Lérida, R. Mayo, C. Pérez-Accino and C. Alamo	521	Comparative study of the effects of clozapine and clothiapine in different preparations of guinea pig and rat isolated organs
T. Tellioğlu, N. Erin, S. B. Akin, K. Berkman and Ş. Oktay	525	Alteration of cholinergic pressor and antinociceptive responses in rats pretreated with the cholinergic toxin AF64A
L. Żylińska and B. Legutko	533	Neuroactive steroids modulate *in vitro* the Mg^{2+}-Dependent Ca^{2+}-ATPase activity in cultured rat neurons
J. Kojima and K. Onodera	537	Effects of NIK-247 and tacrine on muscarinic receptor subtypes in rats
K. V. Azatian, A. R. White, R. J. Walker and S. N. Ayrapetyan	543	Cellular and molecular mechanisms of nitric oxide–induced heart muscle relaxation
P. Ramaprasad and C. Kasinathan	555	Isolation of tyrosylprotein sulfotransferase from rat liver
A. M. Mat Jais, M. F. Matori, P. Kittakoop and K. Suwanborirux	561	Fatty acid compositions in mucus and roe of haruan, *Channa striatus*, for wound healing
M. Cappiello, P. G. Vilardo, A. Del Corso and U. Mura	565	Hirunorms, novel hirudin-like direct thrombin inhibitors
C. D. Cash	569	Why tryptophan hydroxylase is difficult to purify: a reactive oxygen-derived species-mediated phenomenon that may be implicated in human pathology
A. Mizuno, K. Umemura and M. Nakashima	575	Inhibitory effect of MCI-186, a free radical scavenger, on cerebral ischemia following rat middle cerebral artery occlusion
H. Masuda, M. Goto, S. Tamaoki, S. Kamikawatoko, T. Tokoro and H. Azuma	579	M_3-type muscarinic receptors predominantly mediate neurogenic quick contraction of bovine ciliary muscle
K.-C. Chang, E.-B. Koo, G.-W. Lee, Y.-J. Kang and H.-Y. Lee	585	Comparison of relaxations evoked by photoactivation of NO-containing compounds and nitrergic nerve stimulation in 5-hydroxytryptamine- and potassium-contracted rat gastric fundus
G. Lopes, N. S. Hell, F. B. Lima, M. Vardanega and R. B. Bazotte	593	Responsiveness of glycogen catabolism to adrenergic agonists during insulin-induced hypoglycemia in rat livers
C. Vargas, M. Tannhauser and H. M. T. Barros	601	Dissimilar effects of lithium and valproic acid on GABA and glutamine concentrations in rat cerebrospinal fluid
U. D. Sohn and H. C. Choi	605	Differential effects of rANF and chronic guanabenz to presynaptic and postsynaptic α2-adrenoceptor-mediated cardiovascular response in pithed rats
A. Doğrul and Ö. Yeşilyurt	613	Effects of intrathecally administered aminoglycoside antibiotics, calcium-channel blockers, nickel and calcium on acetic acid-induced writhing test in mice
Announcement	617
